Introducing D-Link's audio streaming media family of products powered by Bluetooth technology. Access, play, and experience your digital music without the wires.

Wirelessly stream audio content from your PC to your speakers with the DSM-920BT. Everything needed to get you started is included in this kit. The DSM-920BT includes both the DSM-100BT Bluetooth Speaker Adapter and the DSM-120BT USB Bluetooth Stereo Adapter.

The DSM-100BT is a Bluetooth speaker adapter that adds wireless Bluetooth connectivity to your speakers. The DSM-100BT features a standard audio jack that connects quickly and simply to powered speakers or standard PC speakers. With your Bluetooth speakers enabled, listen to your music collection anywhere in your home, wirelessly.

The DSM-120BT is a USB Bluetooth Stereo Adapter for your PC to wirelessly stream your music collection to your Bluetooth enabled speakers. With mini-USB connectivity, the DSM-120BT is a true plug and play solution, connecting quickly and simply to your PC. There are no drivers to install and no software to worry about. Your Windows Operating System will automatically detect and install the DSM-120BT. Once the DSM-120BT is connected, simply play your music collection and enjoy your music anywhere.

The DSM-920BT streaming audio kit gives you the freedom and flexibility to place your speakers anywhere you want and listen to virtually all digital music stored on your PC in MP3, WMA, or AC3 format. The DSM-920BT features plug and play simplicity for a seamless audio multimedia experience.
