

Features

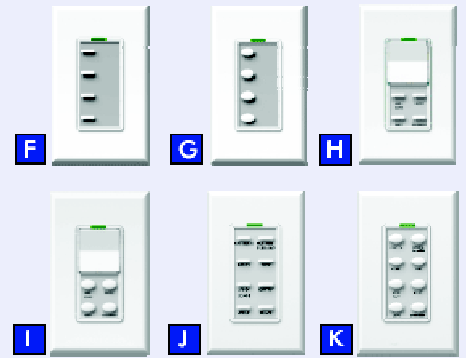

- Field interchangeable rocker and multi-button faceplates
- Change colors without removing switch from mounting box
- Combine load switching with UPB wall control functionality

UPB Benefits

- Higher reliability
- Lower system cost
- Individual home selective (no crossover/interference from adjacent homes)
- Phase coupling not required except in very large homes
- Easily configurable

The **SW Rocker Faceplates** and **WC Multi-button Faceplates** can be installed in the field on the following Web Mountain modules:

Applications

- Manually control whole house lighting and appliances, from a remote location within the home
- Easily control whole groups of lighting (scenes) from anywhere in your home
- Control functions based upon time/event programming when connected to Web Mountain NetPlace server
